QUARTO EDITION
OF THE
PEMBROKE SALE CATALOGUE,
WITH
COPIOUS INDICES,
AND
THE PRICE EACH LOT PRODUCED BY AUCTION.

MESSRS. S. LEIGH SOTHEY & CO. announce, that in compliance with the suggestion and request of many of their Numismatic friends, they have permitted the publication of One Hundred Copies of this important Catalogue in Quarto.

These have been printed on fine paper, to range with the well known thick 4to. volume containing 306 Plates of the Coins forming the Pembroke Collection, published in 1746, *without letter-press*.

At the same time, to range with the few large paper copies of that work, Twenty-five Copies have been printed on Folio Paper.

It may be presumed that a copy of this carefully written Catalogue will become a desideratum, not only to every possessor of a copy of the Pembroke Plates, but to every practical Numismatist, as a book of reference; inasmuch as the Indices which accompany this 4to. edition, are calculated to connect the Plates with the Catalogue, and the Catalogue with the Plates, so as to increase the practical utility of both works, to the greatest possible degree.

The Indices consist of,—

- 1st. A very copious Alphabetical Index to the Sale Catalogue, separating the three metals, and having also references to the Pembroke Plates, for every coin therein contained.
- 2ndly. A Series of References from the Pembroke Plates to the Catalogue, for each coin, in the order in which it stands engraved.

It is intended further to add, a few Preliminary Remarks, as Preface, as well as the Price which each lot produced.

It may be further hinted, that as the number of 4to. copies of the Catalogue and Indices printed, falls very short of the number of extant copies of the Pembroke Plates in England, and all over Europe, an early application to secure a copy is desirable.
